Tally.ERP 9 - Experience the power

Tally.ERP 9 delivers rich new set of product functionalities and technology capabilities.

Highlights of Tally.ERP 9

❖ **Remote Access:** Access your business data from anywhere in the world. Remote Edit provides you with the capability to enter, rectify or alter transactions or masters from anywhere.

   ◆ Access and edit data from anywhere – even with Tally.ERP 9 installed in educational mode (no need to buy another license).

   ◆ Access your data from a customer's or supplier's location to check up on dues and inventory – improve receivables and inventory control.

   ◆ Your traveling salesmen can create customer information, verify stock position and place orders – improve sales efficiency.

❖ **Integrated Support Centre:** From within Tally.ERP 9, raise your queries to Tally, your service partner and others. See responses as well – even via remote access. As an owner you get to see the various queries raised across your organisation**.**

❖ **Control Centre:** You can manage your license on your own (surrender, re-activate and so on) as well as easily distribute custom code (TDLs) and prevent their misuse.

❖ **Tally.NET:** The technology which powers these capabilities through the Internet also delivers a variety of special services to help your business.

❖ **Integrated Test Engine:** Recruit skilled personnel by conducting online tests to evaluate their product knowledge and skill.
